

Publications – T.C. (Mike) Chung

1. Experimental Studies of Sodium-doped Polyacetylene Optical and ESR Results for Metallic $(\text{CHNa}_y)_x$, T. C. Chung, A. Feldblum, A. J. Heeger and A. G. MacDiarmid, J. Chem. Phys. 74, 5504, 1981.
2. Photoexcitation in Polyacetylene, L. Lauchlan, S. Etemad, T. C. Chung, A. J. Heeger and A. G. MacDiarmid, Phys. Rev. B 24, 3701, 1981.
3. Electronic Excitation in Polyacetylene, S. Etemad, A. J. Heeger, L. Lauchlan, T. C. Chung and A. G. MacDiarmid, Mol. Cryst. Liq. Cryst. 77, 43, 1981.
4. Photoconductivity in Polyacetylene, S. Etemad, M. Mitami, M. Ozaki, T. C. Chung, A. J. Heeger and A. G. MacDiarmid, Solid State Commun. 40, 75, 1981.
5. Inter-soliton Electron Hopping Transport in trans-(CH) $_x$, D. Moses, J. Chen, A. Denenstein, M. Kaueh, T. C. Chung, A. J. Heeger and A. G. MacDiarmid, Solid State Communications, 39, 1007, 1981.
6. Pressure Dependence of the Photoabsorption of Polyacetylene, D. Moses, A. Feldblum, E. Ehrnfreund, T. C. Chung, A. J. Heeger and A. G. MacDiarmid, Physical Rev. B 26, 3361, 1982.
7. Electrochemical Isomerization of cis-(CH) $_x$ to trans-(CH) $_x$, T. C., Chung, A. G. MacDiarmid, A. Feldblum and A. J. Heeger, J. Polymer Science, Polymer Lett. Ed. 20, 427, 1982.
8. Opto-electrochemical Spectroscopy of trans-(CH) $_x$, A. Feldblum, J. H. Kaufman, S. Etemad, A. J. Heeger, T. C. Chung and A. G. MacDiarmid, Physical Rev. B 26, 815, 1982.
9. Chemical and Electrochemical Isomerization of Polyacetylene: In situ Optical Studies, A. Feldblum, A. J. Heeger, T. C. Chung and A. G. MacDiarmid, J. Chem. Phys. 77, 5114, 1982.
10. Picosecond Photoinduced Dichroism in trans-(CH) $_x$: Direct Measurement of Soliton Diffusion, A. Vardeny, J. Strait, D. Moses, T. C. Chung and A. J. Heeger, Physical Rev. Lett. 49, 1657, 1982.
11. Picosecond Photoinduced Optical Anisotropy in trans-(CH) $_x$, A. Vardeny, J. Strait, D. Moses, T. C. Chung and A. J. Heeger, J. de Physique C3-403, 1983.
12. Charge Transport at Mid-gap in trans-(CH) $_x$: An Electrochemical Study, J. H. Kaufman, T. C. Chung and A. J. Heeger, Solid State Comm. 47, 585, 1983.

13. Polarons and Soliton in trans-(CH)_x: An Optical Study, S. Etemad, A. Feldblum, A. G. MacDiarmid, T. C. Chung and A. J. Heeger, *J. Physique* C3, 413, 1983.
14. Polarons and Soliton Model for Macroscopic Conduction in Doped Polyacetylene, A. G. MacDiarmid and T. C. Chung, *J. de Physique* C3, 513, 1983.
15. Photoexcitation in trans-(CH)_x: A Fourier Transform Infrared Study, F. B. Blanchet, C. R. Fincher, T. C. Chung and A. J. Heeger, *Physical Rev. Lett.* 50, 1938, 1983.
16. Optical Studies of Pyrolyzed Polyacrylonitrile, T. C. Chung, Y. Schlesinger, S. Etemad, A. G. MacDiarmid, and A. J. Heeger, *J. Polymer Science, Polymer Phys. Ed.*, 22, 1239, 1984.
17. Solitons at High Density in trans-(CH)_x: Collective Transport by Mobile, Spinless, Charged Soliton, T. C. Chung, F. S. Moraes, J. D. Flood and A. J. Heeger, *Physical Rev. B* 29, 2341, 1984.
18. Soliton or not in Polyacetylene, A. J. Heeger, G. Blanchet, T. C. Chung and C. Fincher, *J. of Synthetical Metal*, 9, 173, 1984.
19. Fundamental Electrochemistry Studies of Polyacetylene, J. H. Kaufman, T. C. Chung and A. J. Heeger, *J. Electrochem. Soc.* 131, 2847, 1984.
20. Electronic and Optical Properties of Polythiophene, T. C. Chung, J. H. Kaufman, A. J. Heeger and F. Wudl, *Physical Rev. B* 30, 702, 1984.
21. Electrochemistry of Polythiophene, J. H. Kaufman, T. C. Chung, A. J. Heeger and F. Wudl, *J. Electrochem. Soc.* 131, 2093, 1984.
22. Synthesis and Properties of Chemically Coupled Polythiophene, M. Kobayashi, T. C. Chung, J. H. Kaufman, F. S. Moraes, E. Chen, F. Wudl and A. J. Heeger, *Synthetic Metal*, 9, 77, 1984.
23. Doped Polythiophene: ESR Determination of the Magnetic Susceptibility, F. Moraes, D. Davidov, M. Kobayashi, T. C. Chung, J. Chen, A. J. Heeger and F. Wudl, *Synthetic Metals*, 10, 169, 1985.
24. Soliton Lattice to Metal: A First-order Phase Transition, J. Chen, T. C. Chung, F. Moraes and A. J. Heeger, *Solid State Communication*, 53, 757, 1985.
25. Charge Storage in Doped Polythiophene: In situ Opto-Electrochemical Spectroscopy, T. C. Chung, J. H. Kaufman, A. J. Heeger, F. Wudl, *Mol. Cryst. Liq. Cryst.* 118, 205, 1985.
26. First-order Transition to a Novel Metallic State in [Na⁺y(CH)^{-y}]_x; insitu Electron Resonance During Chemical and Electrochemical Doping, F. Moraes, J. Chen, T. C. Chung and A. J. Heeger, *Synthetic Metals*, 11, 291, 1985.

27. Rod to Coil Transition and Aggregation in Soluble Polydiacetylenes, D. G. Peiffer, T. C. Chung, D. N. Schulz, P. K. Agarwal, R. T. Garner and N. W. Kim, *J. Chemical Physics*, 85, 4712, 1986.
28. Method for Preparing Functional α -Olefin Polymers and Copolymers, T. C. Chung, U. S. Patent 4,734,472 (1988).
29. Process for Preparing Functional α -Olefin Homo and Copolymers, T. C. Chung, U. S. Patent 4,751,276 (1988).
30. Polyalcohols with Well-Defined Molecule Structure, T. C. Chung, M. Raate, E. Berluce, and D. N. Schulz, *Macromolecules*, 21, 1903, 1988.
31. Test of the Assumption of the Scaling Law for Polymer Monolayer, M. W. Kim, S. N. Lin and T. C. Chung, *Physical Review Letter*, 20, 2745, 1988.
32. Synthesis of Polyalcohols via Ziegler-Natta Polymerization, T. C. Chung, *Macromolecules*, 21, 865, 1988.
33. Two Dimensional Properties of Surfactant-Like-Polymer Monolayer, M. W. Kim and T. C. Chung, *J. Colloid and Interface Science*, 124, 305, 1988.
34. Conformational Transitions in Polydiacetylene Solutions, D. G. Peiffer, T. C. Chung, D. N. Schulz, P. K. Agarwal, R. T. Garner, M. W. Kim, and R. R. Chance, in *nonlinear optical and electroactive polymers*, Ed. by P. N. Prasad and D. R. Ulrich, Plenum Publishing Co. p-205, 1988.
35. Positron Annihilation Studies of a Conjugated Polymer, W. F. Huang, Z. J. Xu, T. C. Chung, and K. C. Lin, *Physics Letter A, Condensed Matter Section*, 129, 411, 1988.
36. Polyalcohols Homopolymers, T. C. Chung, U. S. Patent 4,812,529 (1989).
37. Process for Preparing Polyalcohol Homopolymers, T. C. Chung, U. S. Patent 4,877,846 (1989).
38. Synthesis of Functional Diblock Copolymers Containing Polydiene Block and Functional Polymer Block, T. C. Chung, *J. of Polymer Sci., Polymer. Chem. Ed.*, 27, 3251, 1989.
39. Poly (exo-5-hydroxybicyclo (2,2,1) hept-2-ene): A Functional Polymer Using Metathesis Polymerization of an Organoborane Derivative, S. Ramakrishnan and T. C. Chung, *Macromolecules*, 22, 3181, 1989.
40. Block Copolymers Containing Functional Polymers and Polydienes, T. C. Chung, "Multiphase Macromolecular Systems", Plenum Press, 6, 315, 1989.
41. Positron Trap States in Amorphous and Crystalline Conjugated Polydiacetylene Polymers, K. C. Lim, W. F. Huang, Z. J. Xu, F. G. Yamagishi, M. A. Schen and T. C. Chung, *Physics Lett.,A*, 142, 164, 1989.

42. Functional Groups Containing Copolymers Prepared by Ziegler-Natta Process, S. Ramakrishnan, E. Berluche, and T. C. Chung, *Macromolecules*, 23, 378, 1990.
43. Synthesis of Difunctional Initiator via Peterson Reaction, D. C. Lee, and T. C. Chung,
44. *J. of Polymer Sci., Polymer Chem. Ed.*, 28, 505, 1990.
45. An NMR Study of Alkyl Exchange Reaction Between Boron and Aluminum, S. Ramakrishnan and T. C. Chung, *J. Organomet. Chem.*, 388, 1, 1990.
46. Poly (5-hydroxyoctenomer) and Its Derivatives: Synthesis via Metathesis Polymerization of An Organoborane monomer, S. Ramakrishnan and T. C. Chung, *Macromolecules*, 23, 4519, 1990.
47. The synthesis and Characterization of Polyisobutylene-polycaprolactone Block Copolymers, K. R. Gorda, D. G. Peiffer, T. C. Chung and E. Berluche, *Polymer Communications*, 31, 287, 1990.
48. Synthesis of Alternating Vinyl Alcohol Copolymers, T. C. Chung, *Polymer* 32, 1336, 1991.
49. Poly (exo-5-hydroxynorbornene): Structural Characterization and Property evaluation of Various Cis/Trans Isomer Compositions, T. C. Chung, S. Ramakrishnan and M. W. Kim, *Macromolecules*, 24, 2675, 1991.
50. X-ray Reflectivity of Polymer Monolayer at the Water/vapor Interface, M. L. Schlossman, D. K. Schwartz, E. H. Kawamoto, G. Kellogg, P. S. Pershan, M. W. Kim and T. C. Chung, *J. Phys. Chem.* 95, 6628, 1991.
51. Synthesis of Functional Polyolefins via Borane Monomers and Ziegler-Natta Catalysts, T. C. Chung, *ChemTech* 27, 496, 1991.
52. Ring Opening Metathesis Polymerization and Cyclic Organoborane Monomers, T. C. Chung, *Die Makromolekulare Chemie, Macromol. Symp.* 42/43, 293, 1991.
53. Polyboranes, Synthesis and Their Applications in Functional Polyolefins, T. C. Chung, *J. of Inorganic and Organometallic Polymers*, 1, 37, 1991.
54. Synthesis of Functionalized Polypropylene, T. C. Chung and D. Rhubright, *Macromolecules* 24, 970, 1991.
55. A New Synthetic Route to Telechelic Polymers, T. C. Chung and M. Chasmawala, *Macromolecules* 24, 3718, 1991.
56. Functionalized Polyolefins via Copolymerization of Borane Monomers in Ziegler-Natta Process, T. C. Chung, "Advances in New Material Contemporary Topics in Polymer Science, Plenum Press 7, 1991.

57. Organoborane Mediated Synthesis of Functional Polymers - A Review, T. C. Chung and D. N. Schulz, *Heteroatom Chem.* 2, 545, 1991.
58. Functional Polycyclopentadiene Resins via Hydroboration Process, T. C. Chung, E. Berluche, R. V. Kastrup and J. Bock. U. S. Patent 5,093,433 (1992).
59. Para-alkylstyrene/isoolefin Copolymers and Functionalized Copolymers Thereof, K. W. Powers, T. C. Chung, H. C. Wang, A. J. Dias and J. A. Olkusz, U. S. Patent U. S. Patent 5,162,445 (1992).
60. Synthesis of Functional Polymers via Borane Monomers and Metathesis Catalysts,
61. T. C. Chung, *J. Molecular Catalysis* 76, 15, 1992.
62. Carbocationic Polymerization of Isobutylene by Using Supported Lewis Acid Catalyst on Polypropylene, T. C. Chung and A. Kumar, *Polymer Bulletin* 28, 123, 1992.
63. Polyorganoboranes; Synthesis and Applications, T. C. Chung, *Chemistry & Industry* 7, 255, 1992.
64. Synthesis of Poly(Octene-g-MMA) Copolymers, T. C. Chung and G. J. Jiang, *Macromolecules* 25, 4816, 1992.
65. Telechelic Polymers Prepared by Metathesis Catalysis and Borane Monomers, T. C. Chung and M. Chasmawala, *Macromolecules* 25, 5137, 1992.
66. Observations on The Ordering of Triblock Copolymers at Homopolymer Interfaces, T. P. Russell, A. M. Mayes, V. R. Deline and T. C. Chung, *Macromolecules* 25, 5783, 1992.
67. Hydrocarbon Polymers Containing Borane Groups At Chain Ends Or In Polymer Backbone, T. C. Chung and M. Chasmawala, U. S. Patent 5,247,023 (1993).
68. *New Advances in Polyolefins* T. C. Chung (Ed.), Plenum, New York, 1993
69. Borane Containing Polymers; The Versatile Intermediates, T. C. Chung, *Polymer News* 18, 38, 1993.
70. Supported BF₃ Catalyst on Crystalline Polyolefins; Carbocationic Polymerization of Isobutylene, T. C. Chung, D. Rhubright, D. Rhubright and A. Kumar, *Polymer Bulletin* 30, 385, 1993.
71. Adhesion Improvement in Polypropylene/Aluminum Laminates, W. Chinsirikul, T. C. Chung and I. Harrison, *J. Thermoplastic Composite Materials* 6, 18, 1993.
72. Kinetic Aspects of The Copolymerization Between α -olefins and Borane Monomers in Ziegler-Natta Catalyst, T. C. Chung and D. Rhubright, *Macromolecules* 26, 3019, 1993.

73. Functionalization of Polypropylene by Hydroboration Reaction, T. C. Chung and D. Rhubright, *J. of Polymer Sci., Polymer. Chem. Ed.* 31, 2759, 1993.
74. Synthesis of PP-g-PMMA Copolymers by Borane Approach, T. C. Chung, G. J. Jiang and D. Rhubright, *Macromolecules* 26, 3467, 1993.
75. Immobilized Lewis Acid Catalysts, T. C. Chung, F. J. Chen and J. E. Stanat, A. Kumar, U. S. Patent 5,288,677 (1994).
76. Olefin Graft Copolymers Prepared by Borane-Containing Olefin Backbone Polymers, T. C. Chung, D. Rhubright and G. J. Jiang, U. S. Patent 5,286,800 (1994).
77. Functional Polymers Prepared by Borane Approach, T. C. Chung, A Chapter in a book "New Advances in Polyolefins", P-59, 1994.
78. Synthesis of Polyolefin-PMMA Graft Copolymers, T. C. Chung, G. J. Jiang and D. Rhubright, A Chapter in a book "New Advances in Polyolefins", P-75, 1994.
79. Supported Lewis Acid Catalysts Based on Polyolefin Thermoplastics, T. C. Chung and A. Kumar, A Chapter in a book "New Advances in Polyolefins", P-87, 1994.
80. Evaluation of Poly(propylene-co-hexen-6-ol) as An Interfacial Agent in PP/Glass Laminates, S. H. Lee, C. L. Li and T. C. Chung, *Polymer* 35, 2979, 1994.
81. Synthesis of Ethylene-Propylene Rubber Graft Copolymers by Borane Approach, T. C. Chung, W. Janvikul, R. Bernard and G. J. Jiang, *Macromolecules* 27, 26, 1994.
82. Polypropylene-g-Polycaprolactone; Synthesis and Applications in Polymer Blends, T. C. Chung and D. Rhubright, *Macromolecules* 27, 1313, 1994.
83. New Pizzazz for Polyolefins, PE, PP, etc., Seeking A Premium Through Functionalization, T. C. Chung, *Earth & Mineral Science*, 63, 3, 1994
84. Synthesis and Functionalization of Unsaturated Polyethylene; Poly(ethylene-co-1,4-hexadiene), T. C. Chung, H L. Lu and C. L. Li, *Macromolecules* 27, 7533, 1994.
85. Olefin Graft Copolymers Prepared by Borane-Containing Olefin Backbone Polymers, T. C. Chung, G. J. Jiang and D. Rhubright, U. S. Patent 5,401,805 (1995).
86. Immobilized Lewis Acid Catalysts for The Preperation of Polybutylene, T. C. Chung, F. J. Chen, J. E. Stanat and and A. Kumar, U. S. Patent 5,409,873 (1995).
87. CIP, Immobilized Lewis Acid Catalysts, T. C. Chung, F. J. Chen and J. E. Stanat, A. Kumar, U. S. Patent 5,414,177 (1995).

88. Telechelic Polyisobutylene: A Facile Synthesis via The Borane Approach and The Cross-Metathesis Reaction, T. C. Chung and M. Chasmawala, *Macromolecules* 28, 1333, 1995.
89. Butyl Rubber Graft Copolymers; Synthesis and Characterization, T. C. Chung, W. Janvikul, R. Bernard, C. L. Li, S. L. Liu and G. J. Jiang, *Polymer* 36, 3565, 1995.
90. Functionalized Polyolefins Prepared by The Combination of Borane Monomers and Transition Metal Catalysts, T. C. Chung, *Macromolecular Symp.* 89, 151, 1995.
91. Functionalization of Polyethylene Using Borane Reagents and Metallocene Catalysts, T. C. Chung, H. L. Lu and C. L. Li, *Polymer International* 37, 197, 1995.
92. Recent Developments in Functionalization of Polyolefins by Borane Approach, T. C. Chung, *Trends in Polymer Science* 3, 191, 1995.
93. CIP, Immobilized Lewis Acid Catalysts for The Preparation of Polybutylene, T. C. Chung, F. J. Chen, J. E. Stanat and A. Kumar, U. S. Patent 5,481,054 (1996).
94. Graft Copolymers of Para-alkylstyrene/isoolefin Copolymers as Blend Compatibilizers, K. W. Powers, T. C. Chung, H. C. Wang, A. J. Dias and J. A. Olkusz, U. S. Patent U. S. Patent 5,548,023 (1996).
95. Graft Copolymers of Para-alkylstyrene/isoolefin Copolymers, K. W. Powers, T. C. Chung, H. C. Wang, A. J. Dias and J. A. Olkusz, U. S. Patent U. S. Patent 5,548,029 (1996).
96. Immobilized Lewis Acid Catalysts, T. C. Chung, F. J. Chen and J. E. Stanat, A. Kumar, U. S. Patent 5,563,313 (1996).
97. Immobilized Lewis Acid Catalysts, T. C. Chung, F. J. Chen and J. E. Stanat, A. Kumar, U. S. Patent 5,571,885 (1996).
98. Alpha-olefin/Para-alkylstyrene Copolymers and Functionalized Copolymers Thereof, T. C. Chung and H. L. Lu, U. S. Patent 5,543,484 (1996).
99. Functional Polyolefins: The Borane Approach, T. C. Chung, A Chapter in a book "Functional Polymers", Edited by R. Arshady, ACS Professional Reference Book, 1996.
100. Poly(acrylonitrile-co-vinylcatecholborane): A New Precursor for Carbon Containing B/C, B/N and B/O Species, R. Hu and T. C. Chung, *Carbon*, 34, 595, 1996.
101. A New "Living" Radical Initiator Based on The Oxidation Adducts of Alkyl-9-BBN, T. C. Chung, H. L. Lu and W. Janvikul, *J. Am. Chem. Soc.*, 118, 705, 1996.
102. Synthesis of Polyolefin Graft and Block Copolymers by Reactive Borane Reagents and Applications in Polyolefin Blends and Composites, T. C. Chung, A Chapter in "Reactive Modifiers for Polymers", Edited by Al-Malaika, Chapman & Hall, London, 1997.
103. Functionalization of Polyolefins Using Borane Monomers and Transition Metal Catalysts, T. C. Chung, *The Polymeric Materials Encyclopedia* 4, 2681, 1996.

104. Polyolefin Graft Copolymers Prepared by Borane Approach, T. C. Chung, The Polymeric Materials Encyclopedia 8, 6412, 1996.
105. Supported Lewis Acid Catalysts on Polypropylene; Recoverable and Reusable Catalysts, T. C. Chung, The Polymeric Materials Encyclopedia 10, 8093, 1996.
106. CIP, Immobilized Lewis Acid Catalysts, T. C. Chung, F. J. Chen and J. E. Stanat, A. Kumar, U. S. Patent 5,600,055 (1997).
107. Lewis Acid Catalysts Supported on Porous Polyolefin Films for Polymerization of Isobutylene, T. C. Chung S. H. Lee, F. J. Chen and J. E. Stanat, U. S. Patent 5,691,431 (1997).
108. A Novel Synthesis of PP-b-PMMA Copolymers Via Metallocene Catalysts and Borane Chemistry, T. C. Chung, H. L. Lu and W. Janvikul, Polymer 38, 1495, 1997.
109. Functionalization and Block Reactions of Polyolefins Using Metallocene Catalysts and Borane Reagents, T. C. Chung, H. L. Lu, J. Mol. Cat. A: Chemical 115, 115, 1997.
110. New Hydrophilic Polypropylene Membranes; Fabrication and Evaluation, T. C. Chung and S. H. Lee, J. Appl. Polym. Sci., 64, 567. 1997.
111. Functional Polyolefins; Synthesis and Applications, T. C. Chung, A Chapter in "Era of Materials", Edited by S. K. Majumdar, R. E. Tressler and E. W. Miller, Penn. Acad.Sci., 1998.
112. Synthesis and Structure Characterization of B/C Materials Prepared by 9-Chloroborafluorene Precursor, Raymond Hu and T. C. Chung, Carbon 34, 1181, 1996.
113. Synthesis of Poly(ethylene-co-p-methylstyrene) Copolymers by Metallocene Catalysts with Constrained Ligand Geometry, T. C. Chung and H. L. Lu, J. of Polymer Sci., Polymer. Chem. Ed. 35, 575, 1997.
114. Synthesis of Polyethylene-g-Polystyrene and Polyethylene-g-Poly(p-methylstyrene) Copolymers T. C. Chung, H. L. Lu and R. D. Ding, Macromolecules 30. 1272, 1997.
115. Synthesis of B/C Materials from Boron Containing PhenylAcetylides Precursors, M. Chasmawala and T. C. Chung, Carbon 35, 641, 1997
116. The Functionalization of Polyolefins by Using Reactive Intermediates, T. C. Chung, , A Chapter in "Polymer Modification", Edited by G. Swift, C. Carraher and C. Bowman., Plenum, New York, 1997.
117. Co-carbonization of 9-Chloroborafluorene and Pitch; Synthesis of B/C Materials, R. Hu and T. C. Chung, Carbon 35, 1101, 1997.

118. Lewis Acid Catalysts Supported on Porous Polymer Substrate, F. J. Chen, T. C. Chung, J. E. Stanat and S. H. Lee, U. S. Patent 5,770,539 (1998).
119. Olefin Oligomerization Process, R. L. Shubkin, T. C. Chung and R. Ding, U. S. Patent 5,811,617 (1998).
120. Olefin Oligomerization Process and Catalysts Therefor, T. C. Chung, R. L. Shubkin and R. Ding, European Patent 96944392.8-1211 (1998).
121. New Hydrophilic Polypropylene Membranes, T. C. Chung, U. S. Patent 5,837,365 (1998).
122. New Diblock Copolymers Consisting of Polyolefin and Functional Polymer Segments, T. C. Chung, H. L. Lu and C. L. Li, WO98/02472 (1998).
123. Kinetic and Microstructure Studies of Poly(ethylene-co-p-Methylstyrene) Copolymers Prepared by Metallocene Catalysts with Constrained Ligand Geometry, T. C. Chung and H. L. Lu, J. Polym. Sci., Polymer. Chem. Ed. 36, 1017, 1998.
124. Synthesis of New Polyolefin Elastomers, Poly(ethylene-ter-propylene-ter-p-methylstyrene) and Poly(ethylene-ter-1-octene-ter-p-methylstyrene), T. C. Chung, S. Hong and H. L. Lu, Macromolecules 31, 2028, 1998.
125. New Reactive Polyolefins Containing p-Methylstyrene; Ranging from Semi-crystalline Thermoplastics to Amorphous Elastomers, H. L. Lu and T. C. Chung, A Chapter in ACS Book "Functional Polymers", 1998.
126. Metallocene-based Reactive Polyolefin Copolymers Containing p-Methylstyrene, T. C. Chung, A Chapter in "Preparation, Properties & Technology of Metallocene-Based Polyolefins" Edited by W. Kamisky, John Wiley & Sons, 1998.
127. Maleic Anhydride Modified PP with Controllable Molecular Structure; New Synthetic Route via Borane Terminated PP, Bing Lu and T. C. Chung, Macromolecules 31, 5943, 1998.
128. CIP, Alpha-olefin / Para-alkylstyrene Copolymers and Functionalized Copolymers Thereof, T. C. Chung and H. L. Lu, U. S. Patent 5,866,659 (1999).
129. Olefin Oligomerization Process and Catalysts Therefor, T. C. Chung, R. Ding and R. L. Shubkin, U. S. Patent 5,945,574 (1999).
130. Process of Preparing New Hydrophilic Polypropylene Membranes, T. C. Chung, U. S. Patent 5,976,434 (1999).
131. Polyolefin Copolymers Containing p-Methylstyrene Units; Preparation by Metallocene Catalysts and Application in The Functionalization of Polyolefins, T. C. Chung, ACS Book Chapter, 1999.
132. Polyolefins Containing Reactive p-Methylstyrene Groups; From High T_m Thermoplastics to Low T_g Elastomers, T. C. Chung, J. Elastomers and Plastics, 31, 298, 1999.

133. New Polyolefin Elastomers Containing Reactive p-Methylstyrene Units; Preparation by Metallocene Catalysts, T. C. Chung, H. L. Lu and S. Hong, *Rubber Chem. and Technology*, 72, 1999.
134. Synthesis of Poly(propylene-co-p-methylstyrene) Copolymers and Functionalization, T. C. Chung and H. L. Lu, *J. Polym. Sci., Polymer. Chem. Ed.* 37, 2795, 1999.
135. Borane-containing Polyolefins: Synthesis and Applications, T. C. Chung and W. Janvikul, *J. Organomet. Chem.* 581, 176, 1999.
136. New Maleic Anhydride Modified Polypropylene Copolymers with Block Structure; Synthesis and Application in PP/Nylon Blends, Bing Lu and T. C. Chung, *Macromolecules* 32, 2525, 1999.
137. Synthesis of PP Graft Copolymers via Anionic Living Graft-from Reactions of Polypropylene Containing Reactive p-Methylstyrene Units, H. L. Lu and T. C. Chung, *J. Polym. Sci., Polymer. Chem. Ed.* 37, 4176, 1999.
138. Borane Chain Transfer Agent in Metallocene-Mediated Olefin Polymerization; Synthesis of Borane-terminated Polyethylene and Diblock Copolymers Containing Polyethylene and Polar Polymer, G. Xu and T. C. Chung, *J. Am. Chem. Soc.* 121, 6763, 1999.
139. Synthesis of Long Chain Branched Polypropylene with Relatively Well-defined Molecular Structure, Bing Lu and T. C. Chung, *Macromolecules* 32, 8678, 1999.
140. Synthesis of Syndiotactic Polystyrene (s-PS) Containing a Terminal Polar Group and Diblock Copolymers Containing s-PS and Polar Polymers, G. Xu and T. C. Chung, *Macromolecules* 32, 8689, 1999.
141. Functional Alpha-Olefin/Para-alkylstyrene Terpolymers, T. C. Chung and H. L. Lu., U. S. Patent 6,015,862 (2000).
142. A Process of Preparing Linear Copolymers of Alpha-Olefins and Divinylbenzene With Narrow Molecular Weight and Composition Distributions, T. C. Chung and J. Y. Dong, U. S. Patent 6,096,849 (2000).
143. Synthesis of Maleic Anhydride Grafted Polyethylene and Polypropylene With Controlled Molecular Structures, Bing Lu and T. C. Chung, *J. Polym. Sci., Polym. Chem. Ed.* 38, 1337, 2000.
144. Synthesis and Electric Properties of VDF/TrFE/HFP Terpolymer, T. C. Chung and A. Petchsuk, *Mat. Res. Soc. Symp. Proc.* 600, 53, 2000.
145. Synthesis of Syndiotactic Polystyrene Derivatives Containing Amino Groups, G. Xu and T. C. Chung, *Macromolecules* 33, 5803, 2000.

146. A New Process of Preparing Polyolefin Diblock Copolymers Involving Borane Chain Transfer Reaction in Transition Metal-Mediated Olefin Polymerization, T. C. Chung and G. Xu, U. S. Patent 6,248,837 (2001).
147. A Process of Preparing Polyolefin Graft Copolymers Derived from Linear Copolymers of Alpha-Olefins and Divinylbenzene, T. C. Chung and J. Y. Dong, U. S. Patent 6,265,493 (2001).
148. Linear Alpha-Olefin/Divinylbenzene Copolymers and Graft, T. C. Chung and J. Y. Dong, WO01/07489 (2001).
149. Ferroelectric Polymers with Giant Electrostriction; Based on Semicrystalline VDF/TrFE/CTFE Terpolymers, T. C. Chung and A. Petchsuk, *Ferroelectrics Letters* 28, 135, 2001.
150. A Novel Consecutive Chain Transfer Reaction to p-Methylstyrene and Hydrogen During Metallocene-mediated Olefin Polymerization, T. C. Chung and J. Y. Dong, *J. Am. Chem. Soc.* 123, 4871, 2001.
151. Ferroelectric VDF/TrFE/CTFE Terpolymers; Synthesis and Electric Properties, T. C. Chung and A. Petchsuk, *SPIE Symp. Proc.* 4329, 117, 2001.
152. Polypropylene/Montmorillonite Nanocomposites: A Review of the Synthetic Routes and Material Properties, M. Manias, A. Touny, L. Wu, K. Strawhecker, B. Lu, and T. C. Chung, *Chemistry of Materials* 13, 3516, 2001.
153. Metallocene-Mediated Olefin Polymerization with B-H Chain Transfer Agents; Synthesis of Chain-end Functionalized Polyolefins and Diblock Copolymers, T. C. Chung, G. Xu, Y. Y. Lu, and Y. Hu, *Macromolecules* 34, 8040, 2001.
154. *Functionalization of Polyolefins*, T. C. Chung, Academic Press, London, 2002.
155. Ferroelectric Polymers with Giant Electrostriction; Based on Semicrystalline Terpolymers Containing Vinylidene Difluoride, Trifluoroethylene and Third Monomer, T. C. Chung and A. Petchsuk, U. S. Patent 6,355,749 (2002).
156. Linear Copolymers of Alpha-Olefins and Divinylbenzene Having Narrow Molecular Weight and Composition Distributions, Graft Copolymers Derived Therefrom, and Process for Preparing Same, T. C. Chung and J. Y. Dong, U. S. Patent 6,414,102 (2002).
157. A New Class of "Living" Free Radical Initiators Based on Alkylperoxydiaryborane Derivatives, T. C. Chung U. S. Patent 6,420,502 (2002).
158. Polyolefin Containing A Terminal Styrene or Styrene Derivatives Unit, T. C. Chung and J. Y. Dong, U. S. Patent 6,479,600 (2002).
159. Synthesis of Polyethylene Containing a Terminal p-MS group; Metallocene-mediated Ethylene Polymerization with a Consecutive Chain Transfer Reaction to P-MS and Hydrogen, J. Y. Dong and T. C. Chung, *Macromolecules* 35, 1622, 2002.

160. Ferroelectric Polymers, T. C. Chung, Encyclopedia of Physical Science and Technology, 3rd edition 12, 659, 2002.
161. Synthesis of Functional Polyolefin Copolymers with Graft and Block Structures, T. C. Chung, Progress in Polymer Science 27, 39, 2002.
162. Synthesis of Linear Ethylene/Divinylbenzene Copolymers by Metallocene Catalysts, J. Y. Dong and T. C. Chung, Macromolecules 35, 2868, 2002.
163. Synthesis of New Amphiphilic Diblock Copolymers Containing Poly(ethylene Oxide) and Poly(α -Olefin), Y. Y. Lu, Y. L. Hu, Z. M. Wang, E. Manias, and T. C. Chung, J. Polym. Sci., Polym. Chem. Ed. 40(20), 3416, 2002.
164. Synthesis and Properties of Ferroelectric Fluoro-Terpolymers with Curie Transition at Ambient Temperature, T. C. Chung and A. Petchsuk, Macromolecules 35, 7678, 2002.
165. Functionalized Syndiotactic Polystyrene Polymers Prepared by the Combination of Metallocene Catalyst and Borane Comonomer, J. Y. Dong, E. Manias, and T. C. Chung, Macromolecules 35, 3439, 2002.
166. Electrostrictive Properties of Poly(vinylidene fluoride-trifluoroethylene-chlorotrifluoroethylene), G. S. Buckley, C. M. Roland, R. Casalini, A. Petchsuk, and T. C. Chung, Chem. Mater. 14, 2590, 2002.
167. Synthesis of Isotactic Polypropylene Containing a Terminal Cl, OH, and NH₂ Group via Metallocene-Mediated Polymerization/Chain Transfer Reaction, J. Y. Dong, Z. M. Wang, H. Han, and T. C. Chung, Macromolecules 35, 9352, 2002.
168. New Ferroelectric Fluoro-Terpolymers Based on VDF, TrFE, and Bulky Termonomer; High Dielectric Constant and Large Electric Response at Ambient Temperature, T. C. Chung and A. Petchsuk, Mat. Res. Soc. Symp. Proc, 2002.
169. Synthesis of Chain-end Functionalized Polyolefins and Polyolefin Diblock Copolymers via The Combination of Metallocene Catalysts and Reactive Chain Transfer Agents, T. C. Chung, Israel Journal of Chemistry, 42, 307, 2002.
170. Living Free Radical Polymerization Process, T. C. Chung, U. S. Patent 6,515,088 (2003).
171. Boroxyl-Based Radical Initiators and Polymerization, T. C. Chung and H. Hong, ACS Symposium Series 854, 481, 2003.
172. Synthesis of Linear Polyolefin Elastomers Containing Divinylbenzene Units and Applications in Crosslinking, Functionalization, and Graft Reactions, J. Y. Dong, H. Hong, T. C. Chung, H. C. Wang, and S. Datta, Macromolecules 36, 6000, 2003..

173. Boroxyl-Based Radical Polymerization and Applications, T. C. Chung, *PolymerNews* 28, 240, 2003.
174. Melt Processible Syndiotactic-Polystyrene/Montmorillonite Nano-composites, Z. M. Wang, T. C. Chung, J. W. Gilman, and E. Manias, *J. Polym. Sci., Polym. Phys. Ed.* 41, 3173, 2003.
175. Electrostrictive Behavior of Poly(vinylidene fluoride-trifluoroethylene-chlorotrifluoroethylene), J. T. Garrett, C. M. Roland, A. Petchsuk, and T. C. Chung, *J. Appl. Phys., Appl. Phys. Lett.* 83, 1190, 2003.
176. Exfoliated PP/Clay Nanocomposites Using Ammonium-Terminated PP as the Organic Modification Montmorillonite, Z. M. Wang, H. Nakajima, E. Manias, and T. C. Chung, *Macromolecules* 36, 8919, 2003.
177. Process for Preparing Maleic Anhydride Modified Polyolefins by Oxidation Adducts of Borane and Maleic Anhydride, T. C. Chung, U. S. Patent 6,699,949 (2004).
178. Doubly Hydrogen-bridged 1,2-Diphenylenediboranes Drived from 9-Chloro-9-borafluorene and Ligand Exchange Reactions, H. Hong, and T. C. Chung, *J. Organometallic Chemistry* 689, 58, 2004.
179. Electroactive Properties of Poly(vinylidene fluoride-trifluoroethylene-chlorotrifluoroethylene) Terpolymers at Cryogenic Temperatures, Z. Yu, A. Chen, L. E. Cross, A. Petchsuk, and T. C. Chung, *J. Appl. Phys., Appl. Phys. Lett.* 84, 1737, 2004.
180. Synthesis of New Telechelic Polymers Containing Two OH Groups at the Same Chain End Using 8-Boraindane/Oxygen Controlled Radical Initiator, H. Hong and T. C. Chung, *Macromolecules* 37, 6260, 2004.
181. Synthesis and Functionalization of Isotactic Polypropylene Containing Pendant Styrene Groups, J. Zou, C. Gao, J. Y. Dong, Y. L. Hu, and T. C. Chung, *Macromolecular Rapid Communications* 25, 1797, 2004.
182. A New Process of Preparing Functional Fluoropolymers, T. C. Chung, H. Hong, M. Oka, and K. Kubo, U. S. Patent 6,911,509 (2005).
183. Synthesis of PP Graft Copolymers by the Combination of a PP Copolymer Containing Pendent Vinylbenzene Groups and ATRP Process, C. Gao, J. Zou, J. Y. Dong, Y. L. Hu, and T. C. Chung, *J. Polym. Sci., Polym. Chem. Ed.* 43, 429, 2005.
184. Synthesis of Chain-end Functionalized PP and Applications in Exfoliated PP/clay Nanocomposites, Z. M. Wang, and T. C. Chung, *Macromolecular Symposia*, 2005 (printing).

185. Synthesis of Ethylene/Propylene Elastomers Containing a Terminal Reactive Group; The Combination of Metallocene Catalysis and Control Chain Transfer Reaction, U. Kandil, and T. C. Chung, *J. Polym. Sci., Polym. Chem. Ed.* **43**, 1858, 2005.
186. Metallocene-mediated Synthesis of Chain-end Functionalized Polypropylene and Application in PP/clay Nanocomposites, T. C. Chung, *J. Organometallic Chem.* 2005 (printing).
187. Control of Molecular Weight and Chain End Group in Tactic Polypropylene Using Chain Transfer Agents, T. C. Chung, CRC Book "Catalysis for Stereoregulating Polymerization", Ed. By L. Baugh, J. A. Canich, and B. Coughlin. 2005 (Printing)
188. Metallocene Catalysts for Olefin Polymerization, T. C. Chung, *Encyclopedia of Chemical Processing*, Edited by S. Lee, Marcel Dekker, 2005 (Printing).
189. One-pot Process of Preparing Long Chain Branched Polypropylene (LCBPP) Using C₂-symmetric Metallocene Complex and A "T" Reagent, J. Langston, J. Y. Dong and T. C. Chung, *Macromolecules*, 2005 (printing).
190. Exfoliated Polyolefin/Clay Nano-composites Using Chain End Functionalized Polyolefin As the Polymeric Surfactant, T. C. Chung, E. Manias, and Z. M. Wang, (U. S. Patent Application 10891358 (Filed on July 14, 2004).
191. Synthesis of Telechelic Polymers Containing Two Reactive Functional Groups at the Same Polymer Chain End Using Specific Cycloborane Initiators, T. C. Chung, H. Hong, M. Oka, and K. Kubo, U. S. Patent Application 10778098 (Filed on Feb. 17, 2004).
192. One-pot Process of Preparing A Long Chain Branched Polyolefin Using A Dual Function T Reagent, T. C. Chung, Provisional Patent Application 60584838 (Filed July 1, 2004).
193. Fluoropolymer/Clay Nanocomposites with Exfoliated Structure, T. C. Chung, Z. M. Wang, H. Hong, U. S. Patent Pending (2005).
