The EMS Energy Institute will be holding an open house on Wednesday, September 27, 2023. The open house will begin with a presentation in 401 Steidle Building (4:00 to 4:45 pm) and conclude with tours of the Institute (5:15 to 6:15 pm) followed by a meal.

All faculty who are interested in learning more about the Institute, who may be considering performing research at the Institute, or are currently performing research at the Institute are invited to the open house.

The presentation will discuss the Institute’s history, organization, types of activities, current and emerging initiatives, education/outreach, and facilities to assist the energy research community. Also discussed will be the role the Institute can play in providing support to faculty who are interested in bringing their research through the Institute. Some perspectives on the future directions of the Institute will also be presented. The tour of the Institute will showcase the laboratories and high bay areas, highlighting current and future activities. Following the tour, a meal will be provided for networking.

Parking is open to all permit holders in the Silver B lot outside the institute near the Coal Utilization Lab after 4 pm. A van service is also planned to transport interested faculty and researchers to the institute for the tour. Please also indicate your transportation preference.

Please register by September 13, 2023 for the presentation and tour/meal to provide us with a head count at:
