

# MATERIALS INNOVATION DAY

**July 17, 2023** From 9:00 a.m. to 4:00 p.m.

Learn how material technologies help unlock the mysteries of the universe by studying “dark matter.” The piezoelectric crystals we are developing can listen to the tiniest vibrations excited by “dark matter” and understand their properties.

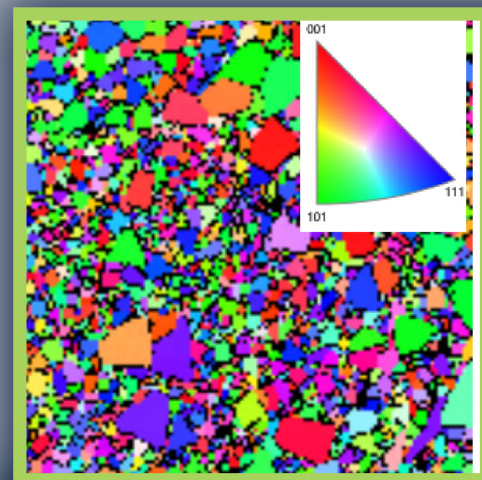

## Free One-Day Summer Camp For High School and Middle School Students

- Tour labs at Penn State
- Watch research demonstrations
- Attend research seminars
- Lunch with Penn State researchers

## Sign Up Today!!!!

*Have your parents visit our website and complete the online registration form!*

**Deadline July 5, 2023!**
